# LOOP PLAYFIELD
174

FACTS

Loop Corner and Loop Line can be combined to create permanent or temporary ball courts for urban spaces and schoolyards or to delimit a space. Like the rest of the Loop family, they invite passers-by to sit, chat and observe urban life.

Design: AART Designers

TECHNICAL DATA

Material
Rotation moulded polyethylene, 8 mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

Surfaces and friction
The products have a textured/granulated surface due to abrasive blasting of the mold. This process enhances the friction and makes the surface less slippery.

Authentication
Loop Line and Corner are TÜV approved as playground equipment acc. EN1176.

Dimensions
Loop Playfield is composed from Loop Line and Loop Corner modules.
Loop Line: L2000 x H400mm / Volume: 240 liter.
Loop Corner: L1400xW1400mmxH400mm / Volume: 250 liter

Combinations
Loop Line and Loop Corner can be combined to create many different sizes of ball courts.

Assembly and fixation
The modules are joined with brackets (B4) at either end. Brackets are included.
For ground fixation use B2 (Loop Corner) + B5 (Loop Line).
For surface fixation use B3 (Loop Corner) + B6 (Loop Line).
Fixation brackets are to be ordered separately.

Recycled and ecolabelled*
Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from. polyethylene bags.
Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 – Responsible consumption and production.
Recycled version is available in anthracite variant, yet colour can vary from order to order.

Maintenance
This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar.

Family
Loop, Loop Light, Loop Arc, Lone Cone

Standard colours
(approx. RAL)

Red: RAL 3020
